The Kentucky Framework for Teaching
with Specialist Frameworks for Other Professionals

The Kentucky Framework for Teaching is designed to support student achievement and professional practice through the domains of:

Framework for Teaching Specialist Frameworks for Other Professionals
Planning and Preparation Planning and Preparation
Classroom Environment Environment
Instruction Instruction/Delivery of Service
Professional Responsibilities Professional Responsibilities

The Frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four domains of the framework. Performance is rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings: *Sources of Evidence*

- Multiple Measures
- Observation
- Self-Reflection
- Other Measures of Student Learning and Products of Practice which may include but not limited to the following:
 - Curriculum documents
 - Lesson plans
 - Communication logs
 - Timely, targeted feedback from mini or informal observations
 - Student data records
 - Student work

 - Student formative and/or summative course evaluations/feedback
 - Minutes from PLCs
 - Teacher reflections and/or self-reflections
 - Teacher interviews
 - Teacher committee or team contributions
 - Parent engagement surveys
 - Records of student and/or teacher attendance
 - Video lessons
 - Engagement in professional organizations
 - Action research
 - Communication evidence
 - Other evidence as deemed appropriate by school or district
 - Professional Development documentation
 - Student surveys
 - Collaboration with parents
 - Classroom management evidence

PAGE 11

All components and sources of evidence related supporting an educator's professional practice will be completed and may be recorded in the State Technical Platform or documented on district forms.

Letters and Memos

In addition to the sources of evidence listed above, letters and memos may be used to document both outstanding performance and performance which needs improvement. The correspondence should be dated and signed by both parties.

Determining Performance Measure Ratings

Four performance measures along with other evidence and professional judgement are used for each component within the domains of the Framework to determine a performance measure rating. The four performance measure ratings are as follows:

- **Exemplary rating** consistently exceeds expectations for effective performance.
- **Accomplished rating** consistently meets expectations for effective performance.
- **Developing rating** inconsistently meets expectations for effective performance.
- **Ineffective rating** consistently fails to meet expectations for effective performance.

Professional Practice

Professional Growth Planning and Self-Reflection

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including classroom observation feedback, student work/progress samples, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers and other professionals will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection. Professional Growth Plans will align with school/district improvement plans. The Professional Growth Plans of teachers/other professionals on a corrective action plan will be more specifically guided by the administration based on identified needs with teacher input.

Reflective practices and professional growth planning are frequent and repetitive processes. The teacher (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues

REQUIRED

- All teachers will participate in self-reflection and professional growth planning each year.
- All teachers will document self-reflection and professional growth planning in the State Technical Platform **or** on district forms.
- Self-reflection process will be completed by **October 1st** of each year. For employees hired after the start of the school year, the self-reflection must be completed within 30 working days of assuming professional responsibility.
- Professional Growth Plans will be submitted to supervisor via the State Technical Platform **or** on district forms **on or before October 1st** each year. For employees hired after the start of the school year, the professional growth plan must be completed within 30 working days of assuming professional responsibility.
- For returning employees the self-reflection and Professional Growth Plans may be created at the end of the current year but must be **finalized by October 1st** of the next school year. ● Non-tenured employees who receive an ineffective rating will not be recommended for continued employment with Hancock County Public Schools. Tenured teachers with an ineffective rating will be placed on a corrective action plan.

Observations

The observation process is one source of evidence to determine teacher effectiveness. Supervisor observations may use the State Technical Platform **or** district forms. The supervisor observation will provide *documentation and feedback* to measure the effectiveness of a teacher's professional practice.

Hancock County Observation Model for Teachers and Other Professionals: Participants

- The Primary Evaluator is the immediate Supervisor. Principals can designate assistant principals as the primary evaluator for certified staff.
- In emergency situations where the Primary Evaluator is unable to finish an observation cycle, an alternate fully certified evaluator will be assigned to complete the observation cycle for those on the caseload.
- Non-tenured and tenured teachers on a one year cycle will have three (3) observations in each summative year, with a minimum of three (3) observations (2 mini and one full) conducted by the supervisor. This occurs until they reach tenure or are placed on a 3 year cycle.
- Tenured teachers will receive 3 evaluator observations (2 mini and one full) in their cycle (which covers a 3 year span). Timeline found on page 14.
- Mini observations are approximately 20-30 minutes in length.
- Mini observations by the evaluator can be unscheduled and do not require a pre-observation meeting.
- Final observation is conducted by the evaluator and is a full observation.
- Summative evaluation conferences shall be held at the end of each summative cycle and shall include all Professional Growth and Effectiveness data. All summative conferences must be held and finalized by April 1 (unless a CEP extension is granted by the Superintendent or designee).
- All observations must be documented in either the State Technology Platform **or** on district forms located in the appendix.
 - The KTIP process will serve as the Certified Evaluation Program for all KTIP teachers, no additional observations or documentation will be required beyond the state KTIP program. ● Additional observations may be conducted as needed for any teacher or other professional. ● Guidance Counselors and Librarians/Media Directors will have a one year summative cycle.

Observation Conferencing

Observers will adhere to the following observation conferencing requirements:

- Pre-observation conferences are required for the full observation. Pre-conferences may occur, but are not required for the mini observations by the evaluator. Use of the Pre-Observation Conference Form is required.
- Pre-observation conferences with the supervisor must be conducted in person within 5 working days of the observations. Supervisors may use the State Technology Platform **or** District Forms to document. ● Full observations will have a pre and post conference documented on district approved forms (appendix) or State approved Technology Platform.
- All observations will include a post-observation conference to be conducted within five (5) working days. The observer will have documentation of the observation ready for this meeting. ● The summative evaluation conference shall be held at the end of the summative evaluation cycle. During the summative conference, the evidence from multiple sources will be reviewed in determining the summative rating.
- Any evaluation conference documentation, including the evaluation, will be signed by the evaluator and the evaluatee. The evaluatee shall receive a copy.
- Evaluatee's may provide written response to be included with evaluation documentation as a part of their official personnel record.
- A summative report shall be printed from the State Technical Platform **or** on district forms at the conclusion of the summative conference and signed by both the evaluator and evaluatee. The summative report shall be included in the district teacher personnel file. (704 KAR 3:345). The evaluatee will also be provided a copy of the summative report.

Observation Schedule

Observations may begin after the evaluation training takes place within the first 30 days of employment. Timelines for when observations must be completed:

Non-tenured or 1-year Cycle Teachers

First Observation Window – After initial training – October 30st

Second Observation Window – November 2st– January 8th

Third Observation Window – January 11th– March 26th

Non-tenured teachers and teachers on a one-year growth plan or 12-month corrective action plan will have two mini observations by their supervisor and a full observation by their supervisor each year until they are tenured or return to a three-year growth plan cycle.

Tenured or 3-year Cycle Teachers

Mini or Full Observation (depending on cycle) – after initial training – March 29th

In addition to the above information, the following shall also be in effect:

- Evaluators may seek window extensions on an individual basis from the Superintendent or designee under extenuating circumstances when employees go on FMLA, extended maternity leave or have significant absences affecting the ability to complete one of the windows on time.
- Tenured teachers on a three-year growth plan cycle will have one mini observation by an evaluator the first year, one mini observation by the evaluator the second year, and the full observation the third year.

- All observations & Conferences must be completed by March 29th of a school year for both tenured and non tenured staff unless circumstances warrant a superintendent approved extension. ● Observation

windows and summative conference data may be altered by the Superintendent or Assistant Superintendent if needed due to inclement weather or emergency situations. • Superintendent or Assistant Superintendent may reduce the number of minimum observations of a teacher or other professional evaluations during the summative evaluation cycle for teacher or other professionals who do not report for work sixty (60) or more consecutive school days or miss extensively throughout the year. Any teacher or other professional in this situation will work with their direct supervisor to create an evaluation plan that must be approved by the Superintendent or Assistant Superintendent and must include at least two observations by their direct supervisor. For tenured teachers who have extenuating circumstances, who do not work 60 or more consecutive days or miss extensively, immediate supervisors may request altered timelines which include 2 mini observations by immediate supervisor and 1 full observation in a summative cycle even if those are shifted within other years of the summative cycle. In extraordinary cases, the number of observations may be reduced. For non-tenured teachers or other professionals with these extenuating circumstances, immediate supervisors may request altered requirements with no less than 1 mini observation by a supervisor and 1 full observation. All requests should be made to the Superintendent or Assistant Superintendent. • All Summative evaluation documentation for personnel records should be completed and sent to the Personnel Coordinator at the Hancock County Board of Education on or before April 15th unless an extension is granted by the Superintendent or designee.

- A minimum of two observations shall be conducted by evaluators for any teacher or other professional hired on or after 60 days following the first day of instruction.

Observer Certification

All new administrators shall be initially trained, tested, and certified according to state guidelines, including training by the district in the use of the local evaluation process. (704 KAR 3:345, Section 6) This refers to the one-time, state, twelve-hour new administrator training and the six-hour annual training by the district. All experienced observers will complete annual training. Hancock County Public Schools will follow state requirements for annual training.

Peer Observation for Teachers & Other Professionals Participants Peer observation may occur as a part of each school's Professional Learning Community (PLC) process but will not be a part of the Certified Evaluation Plan.

Student Voice for Teachers & Other Professionals Participants Schools may conduct self-selected Student Voice Surveys but the data will not be a part of the formal Certified Evaluation Plan.

PAGE 16

Determining the Overall Performance Category For Teachers & Other Professionals

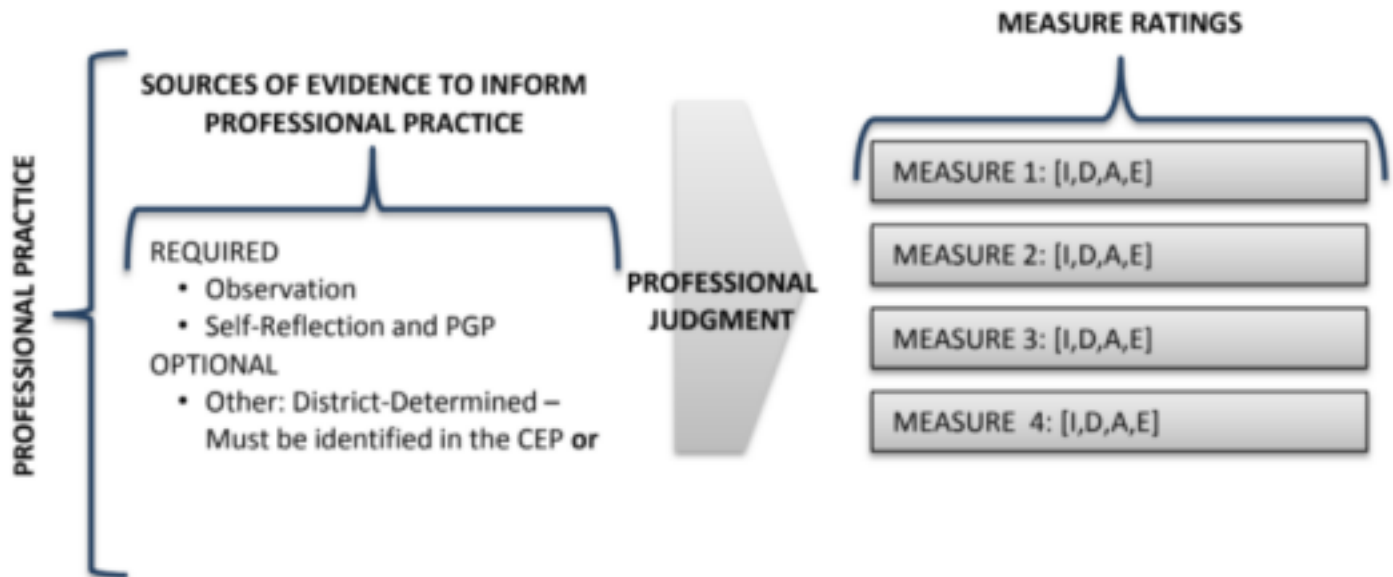

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the educator's ratings on professional practice over the entire cycle. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains and decision rules that establish a common understanding of performance thresholds to which all educators are held.

Rating Professional Practice

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors will organize and analyze evidence for each individual educator based on these concrete descriptions of

practice.

Supervisors and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator’s analysis of evidence and the final assessment of practice in relation to performance described under each Domain at the culmination of an educator’s cycle.

REQUIRED

- Evaluators will provide a summative rating for each domain based on evidence.
- The Summary of Evidence must be completed in the State Technology Platform or on district Summative forms.
- Either the Summary of Evidence or the district Summative form must be signed and placed in the employee’s school and district personnel files. The evaluatee will also be given a copy.

Steps to Determine the Summative Performance Category for Teachers and Other Professionals

An educator’s Overall Performance Category is determined by the following steps:

1. Determine the individual domain/performance measure ratings through the use of multiple sources of evidence, observations and professional judgment.
2. Apply District Decisions Rules for determining an educator’s Professional Practice. When state decision rules will not work using the chart below, the supervisor will make the final rating using professional judgment for the Overall Performance Category
3. Review of prior Professional Practice Ratings of past three (3) years.
4. All Summative ratings must be recorded on approved district summative forms.

STEP 2: District Decision Rules

<i>Criteria for Determining Summative Rating</i>	
IF THEN	
If Environment <u>and</u> Instruction are both rated ineffective	The Summative Rating is <u>ineffective</u>.
If Environment <u>or</u> Instruction is	

rated ineffective	The Summative Rating is <u>developing or ineffective</u>
If Planning <u>or</u> Professionalism is rated ineffective	The Summative Rating shall not be <u>exemplary</u> .

If two Performance Measures are rated developing and two are rated accomplished

The Summative Rating shall be accomplished only if Environment or Instruction is rated accomplished.

If two Performance Measures are rated developing and two are rated exemplary

The Summative Rating shall be accomplished only if Environment or Instruction is rated exemplary.

If two Performance Measures are rated accomplished and two are rated exemplary.

The Summative Rating shall be exemplary only if Environment or Instruction is rated exemplary

STEP 3: Review

Review all three (3) years of Professional Practice Ratings to determine summative progress over time should be considered.

Determining the Overall Performance Category and Summative Rating

The total rankings will be considered from the previous three years (if available) and applied to the following scale, as outlined in the sample below.

Sample 3 year Evaluation Scores/Calculations and Rating for Teacher A

Appeals

Pursuant to KRS 156.557, certified employees who think they were not evaluated fairly may submit an appeal to the panel for a timely review of their evaluation. The purpose of the Appeals Panel Hearing is to review the summative evaluation of the employee. Confidentiality and fairness shall be the primary concerns of the panel. The Local Board of Education Evaluation Policy 03.18 and Administrative Procedure 03.18 AP.11 are located in the Appendix. Information on the Appeals process and LEAP Panel can be found on pages 35-38. Forms for Evaluation Response can be found beginning on page H1.

Corrective Action Plans for Teachers and Other Professionals

A corrective action plan may be written at any time during the school year, but must be written if evaluatee receives an "Ineffective" on the summative form. No more than 3 or 4 specified areas should be denoted for improvement at any given time. When the evaluatee meets specified areas, other areas may be addressed.

Corrective action plans and/or improvement plans will be reviewed throughout the year until performance is

judged to meet the evaluation standards. Review of corrective action plans will be documented on the district approved form.

After an initial conference (Corrective Action Plan meeting) with the evaluatee, the evaluator will send a copy of the plan to the Assistant Superintendent. The Assistant Superintendent will be responsible for informing the Superintendent of all persons on a Corrective Action/Improvement Plan.

Corrective Action Plans will be in place for one year with at least quarterly reviews for tenured teachers. For non-tenured teachers they will be in place until the end of their contract.

Forms for Evaluation Response, Corrective Action Plans, and Performance Assessment Appeals can be found beginning on page H1 of this document.

Overview and Summative Model

The following graphic outlines the summative model for the Certified Evaluation Plan for Principals and Assistant Principals. This model is based on the Professional Standards for Educational Leaders.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply professional judgment to determine the rating on PSEL (Professional Standards for Educational Leaders) standards aligned with the Performance Measures for Planning, Environment, Instruction, and Professionalism. The professional judgment must be grounded in the PSEL standards aligned with the Performance Measures, site visits, Professional Growth Plan, and other sources of evidence. Evaluators will also consider how principals respond to or apply additional supports and resources designed to promote student learning, and their own professional growth. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual Performance Measures. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities. Contextual variables may also impact the learning environment, such as unanticipated outside events or traumas.

PAGE 24

Professional Standards for Educational Leaders

Performance will be rated for each standard according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is projected that most building and district administrators will maintain an Accomplished rating, but will occasionally have exemplary performance on standards at any given time. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The Standards embody a research- and practice-based understanding of the relationship between educational leadership and student learning. Improving student learning takes a holistic view of leadership. In all realms of their work, educational leaders must focus on how they are promoting the learning, achievement, development, and well-being of each student. The Standards reflect

interdependent domains, qualities and values of leadership work that research and practice suggest are integral to student success:

PSEL Standards

1. Mission, Vision, and Core Values
2. Ethics and Professional Norms
3. Equity and Cultural Responsiveness
4. Curriculum, Instruction and Assessment
5. Community of Care and Support for Students
6. Professional Capacity of School Personnel
7. Professional Community for Teachers and Staff
8. Meaningful Engagement of Families and Community
9. Operations and Management
10. School Improvement

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how administrators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development.

Categories of Evidence

Evaluators must use the following categories of evidence in determining overall ratings: ● Required Sources of Evidence

- Professional Growth Planning
- Self-Reflection
- Site-Visits or conferences (for Assistant Principals and District Administrators)
- Evidence of Progress toward Identified Goals.

Evaluators may use the following categories of evidence in determining overall ratings: ● Other Measures of Student Learning

- Products of Practice
- Letters and memos
- Parent and Family Engagement
- Schedules
- Program Development and/or Expansion
- Other Sources

Building and District Administrators Professional Practice

The following sections provide a detailed overview of the various sources of evidence used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection

- *Completed* by Building and District Administrators
- The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student progress and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves administrative practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement.
- All building and district administrators will participate in self-reflection each year by October 1st. For those hired after the start of the school year, the self-reflection must be completed within 30 working days of assuming job responsibilities.
- All professional growth plans will be submitted no later than October 1st and may be updated as relevant. For administrators hired after October 1st, they must submit a professional growth plan within 30 working days of assuming job responsibilities. The administrator may begin a Professional Growth Plan at the end of the current year with the final revised plan submitted by October 1st of the following year or within 30 days of the district receiving new data. Once created, Professional Growth Plans may be reviewed or amended annually for up to three (3) years. After the 3rd review, a new plan must be created. A new plan may be created annually or as needed.

Professional Growth Plan and Summative Cycle **Building and District Administrators**

Based on the overall Professional Values Practice rating, the type of Professional Growth Plan and the length of the summative cycle is determined using the lists below.

If Professional Practice is Exemplary or Accomplished, then...

THREE-YEAR CYCLE SELF-DIRECTED GROWTH PLAN

- Goals set by teacher with evaluator input.
- Plan activities are directed by the administrator and implemented with colleagues.
- Formative review annually.
- Summative occurs at the end of year 3.

If Professional Practice is Developing, then...

ONE-YEAR CYCLE DIRECTED GROWTH PLAN

- Goal(s) Determined by Evaluator & Administrator Collaboration.
- Goals focus on professional practice and school improvement.
- Plan activities designed by evaluator with administrator input.
- Summative review annually.

If Professional Practice is Ineffective, then...

ONE-YEAR DIRECTED GROWTH PLAN

- Goal determined by evaluator.
- Goals focused on low performance/outcome area.
- Plan activities designed by evaluator with administrator input.
- Formative review at midpoint.
- Summative at end of plan (up to 1 year).

PAGE 27

Building and District Administrator Evaluations

Evaluations of building and district administrators are based on the administrator's annual professional growth plan and summative evaluation. The professional growth plan is due on October 1 every school year and the summative evaluation is due on March 29 of every school year. Evidence to be used for the summative evaluation can be taken from site visits, conferences, or from sources of data included in the next section.

Site Visits

Site visits are a method by which the superintendent/designee may gain insight into the principal's practice in relation to the standards. During a site visit, the superintendent/designee will discuss various aspects of the job with the principal, and will use the principal's responses to determine issues to further explore with the faculty and staff. Additionally, the principal may explain the successes and trials the school community has experienced in relation to school improvement.

Conferences

Similar to a site visit, the evaluator may discuss the principal's progress on the annual professional growth goal and the evidence being gathered for the summative evaluation. Conferences can occur throughout the year.

PAGE 28

Products of Practice/Other Sources of Evidence

Building and District Administrators may provide additional evidence to support assessment of their own professional practice. These sources of evidence should yield information related to their practice within the Performance Standards and the Four Framework Domains.

- Progress towards school goals
- SBDM Minutes
- Faculty Meeting Agendas and Minutes
- Department/Grade Level Agendas and Minutes
- PLC Agendas and Minutes
- Leadership Team Agendas and Minutes
- Instructional Round/Walk-through documentation

- Budgets
- EILA/Professional Learning experience documentation
- Surveys both Student & Staff
- Professional Organization memberships
- Parent/Community engagement surveys
- Parent/Community engagement events documentation
- School schedules
- Other evidence as deemed appropriate by district
- Evidence of student progress and achievement
- Evidence of professional support and collaboration
- Other items as specifically related to each District Administrative Position

Letters and Memos

In addition to the sources of evidence listed above, letters and memos may be used to document both outstanding performance and performance which needs improvement. The correspondence should be dated and signed by both parties.

Principals and Assistant Principals of schools determined by KDE or assessment results to have significant Gaps in student achievement or deemed to be in any level of assistance by KDE must create a goal based on data to help move the school out of the assistance category.

PAGE 29

Determining the Overall Performance for Professional Practice

Category Superintendents/designee are responsible for determining an Overall Performance for Professional Practice Category for each building and district administrator at the conclusion of his or her summative evaluation year. This Overall Performance Category is informed by the administrator's ratings on professional practice standards which result in a score for each of the four domains.

Rating Overall Performance of Professional Practice

- Evaluators will use decision rules to determine an overall rating.
- Evaluators will record ratings on district forms or state technology platform if available and preferred.
- Overall professional practice ratings will be assigned on or before June 30th of each school year.

A building or district administrator’s Overall Performance Category is determined by the evaluator based on the ratings on each standard which yield a rating on each of the four performance measures (Planning, Environment, Instruction, Professionalism). The evaluator uses The Role Group Performance Criteria Crosswalk (pg. 25), the decision rules, sources of evidence provided by the administrator to determine the overall rating.
